

Satellite symposium

## Revolution in anticoagulation?

Friday 26 February at 11.00 a.m. in room 0.4/0.5

Chairman: Dr. M.V. Huisman

- 1 The relationship between venous and arterial thrombosis:  
Dr. W.M. Lijfering, clinical epidemiologist, UMCG
- 2 New approaches in the treatment of venous thrombo-embolism:  
Dr. M.V. Huisman, internist in vascular medicine, LUMC
- 3 New approaches in preventing arterial thromboembolism in atrial  
fibrillation, Prof. Dr. H.J. Crijns, cardiologist, MUMC

Every lecture takes 20 minutes

Dear Mr and Mrs,

Boehringer Ingelheim is honored and pleased to invite you for the **Satellite Symposium** during the **14<sup>th</sup> European Vascular Course 2010**, Maastricht to be held **February 25-27**.

This year's EVC consists of three Courses: the Vascular Course, the Venous Course and the Vascular Access Course.

In all courses the surgical and endovascular topics will be illustrated by means of edited video's whereas the state of the art lectures are concluded with recommendations or guidelines. The program comprises many work-shops, hands-on courses, live cases and satellite symposia.

During a dedicated Satellite Symposium Boehringer Ingelheim – as a major cardiovascular company – will update you on the latest developments in the treatment of venous trombo-embolism and preventing arterial trombo-embolism in atrial fibrillation

Hoping to welcome you in Maastricht,  
sincerely yours,

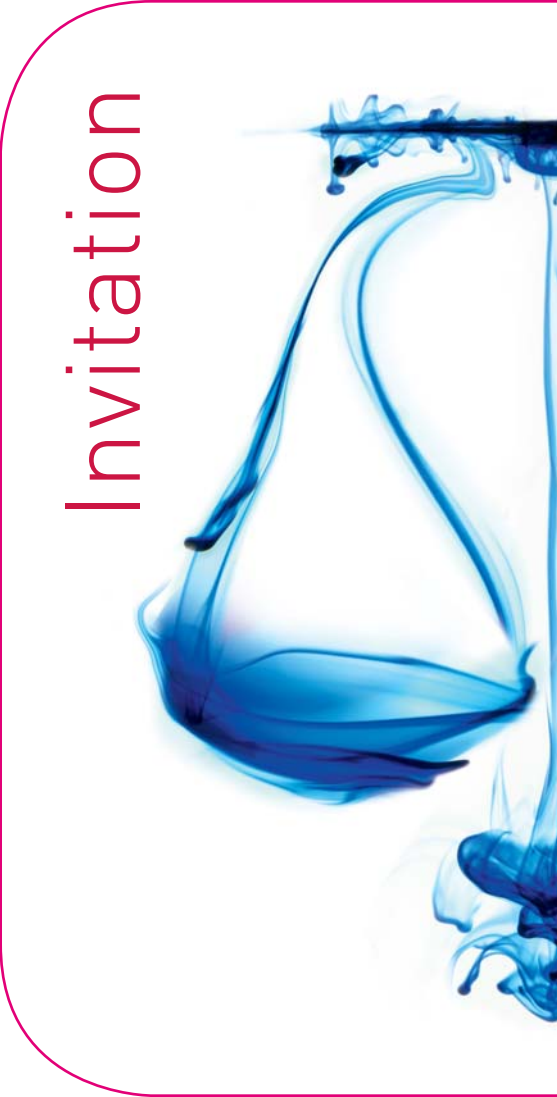

Bas Buis

On the occasion of the  
14<sup>th</sup> European Vascular Course,  
25 - 27 February 2010, Maastricht  
(The Netherlands)
